

TECHNICAL DATA

APD CLEANER

Organic Heavy-Duty Degreaser

DESCRIPTION

APD Cleaner is a concentrated natural solvent based heavy-duty degreaser formulated for a wide variety of food plant and industrial applications. This unique organic blend contains a combination of surfactants and orange oil making it very effective when removing oil and grease from most surfaces while leaving a fresh, natural citrus scent. **APD Cleaner does not contain phosphates or petroleum solvents.**

DIRECTIONS

For heavy duty industrial degreasing: Dilute product 1:10 with water and spray on surface. Allow 3-5 minutes to work before rinsing with hot water or steam.

For lighter degreasing: Dilute with up to 40-100 parts of water, allow to penetrate and then rinse with hot water. It may also be used in a pressure washer in dilutions of 1:5 to 1: 80.

CONTAINS

Caustic Potash, Natural Solvents, Surfactants, and Water Conditioners.

FOR FOOD PLANT AND INDUSTRIAL USE ONLY
